

Title:

## **AI Evaluation & Prompt Engineering Portfolio — Precious Q. Osuji**

### **What I Do**

AI prompt engineering, LLM evaluation, dataset design, hallucination reduction, and safety refinement.

### **Core Capabilities**

- Prompt optimization & persona design
- LLM accuracy and hallucination evaluation
- Fact-checking & safety analysis
- Dataset labeling & quality control
- Full-stack LLM integration

### **Selected Projects**

- LLM Prompt Library — prompt systems & evaluation rubrics
- AI Model Evaluation Kit — scoring & benchmarking
- Fact-Checking Pipeline — hallucination detection
- Data Annotation Simulator — dataset quality workflows

### **Tools**

GPT-4, Claude, Python, FastAPI, LangChain, Next.js, scikit-learn

### **What Teams Use Me For**

Improving model reliability, reducing hallucinations, and preparing production-ready AI systems.
